

# FRONT OPEN SERIES

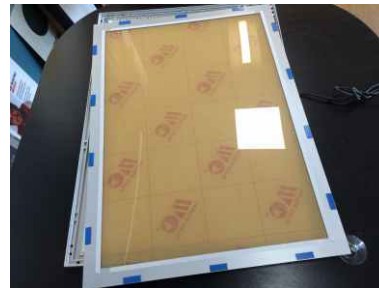

## Print Installation

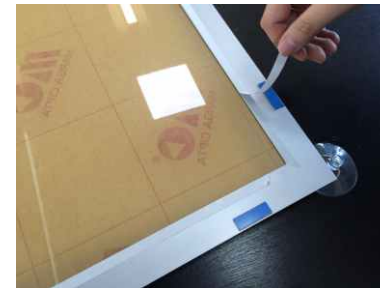

1. Prepare your image, make sure the size meets lightbox's image size.

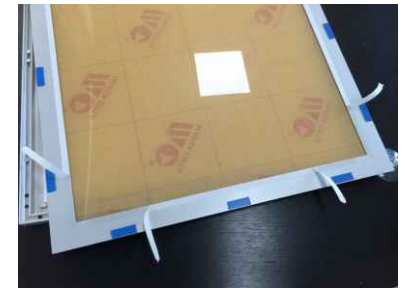

2. Use supplied suction cap to pull out the acrylic face, careful not to drop it on the ground.

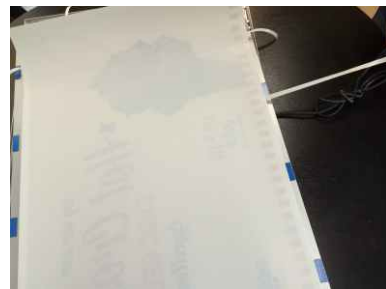

3. Lay the acrylic face on a clean surface, face downward.

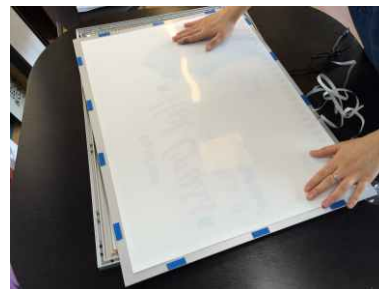

4. Remove sections of double sided tape on each corner.

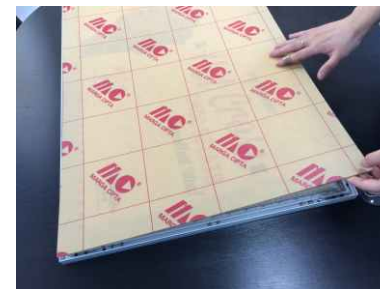

5. Apply print on to the acrylic panel, face downward, position in the centre.

6. Remove all double sided tape around the parameter.

7. Gently spread the print on to double sided tape.

8. Replace the acrylic face back onto the lightbox.

9. Remove protective film.
